Day 2, Theatres/Lab -----	6	1			

Comments

We would appreciate any comments on what you enjoyed and areas for improvement and/or suggested changes for the course: -

A very good hands on course.

Excellent course. Access to videos would be great, by email or on website.

Excellent overall. Sadly for me, I was on a low carbohydrate diet. I found the live operating particularly valuable, as simulation equipment rarely matches the tissues during actual procedures and dealing with problems which present themselves is best demonstrated live.

I found it very helpful. Some cases were complicated so we couldn't do much (e.g. high BMI). More selected case would have been more beneficial.

Excellent course. I will recommend it.

As a registrar in O&G, not only did I learn about the techniques for TLH (+/- BSO), I also learned more fundamental techniques (e.g. suturing, knot tying) and good practice points which will hold me in good stead in my future surgical career. Thank you for running the course!!

Very useful course. Learnt several tips/techniques.

THANK YOU FOR TAKING THE TIME TO COMPLETE THIS FORM
