Comments

We would appreciate any comments on what you enjoyed and areas for improvement and/or suggested changes for the course: -

Good faculty to delegate ratio. Lots of practice tie and adequate hands on. Good food, very well organised. Friendly team. The only negative I notice is that some sample tissues to practice suturing on have already been used to max capacity. Well done.

Enjoyed every aspect of the two days. Interesting to see the procedure and have a better understanding of the patient's surgery.

Very good insight into procedure, techniques and also patient journey for us as nursing staff.

Great workshop. Patient faculty, would recommend to colleagues

I had a good time during this course, I got a lot of hands on. I will recommend tit to every laparoscopist who starts to do TLH's. I will try to come back at some time to keep the skills & Steps up! Well done Mr Abdul Overall good experience

Very good course. Excellent delivery, very approachable faculty. I would recommend this course to colleague and Trainees. Well done, keep it up.

THANK YOU FOR TAKING THE TIME TO COMPLETE THIS FORM
